Noticeboard

We're all getting used to 2023 now and the prospect of leaving wind, rain and even snow behind us for the special Springs we have here.

As you know we raised the magnificent amount of £305 for Grade Ruan school to purchase playground benches. If you turn to page 37 you can see a photo of the children using them- how lovely to see such an instant result!

From Em, Abi and Tilly Clarke

We three Clarkes of Orient are
One on a surfboard, two in a car.

A huge thank you and congratulations to everyone involved in the production of our dear dad, Graham Clarke's play, Joe Carpenter & Son. A truly magical Cornish thread ran throughout the performance and many tears of laughter and emotion were shed.

Mum and dad would have dearly loved to be there in person but the journey by car (or donkey) was going to be a bit too much.

But it was well worth Abi and Em's 330 mile journey from Kent and Tilly and

Sally's trip from Dorset (with a surf stop in Newquay) - an absolute delight.

It was the perfect encapsulation of everything dad and our family love, and have been so fortunate to enjoy, about your village over many years. A celebration of community, love, humour, wonderful music, beautiful singing and talent, not to mention hard work.

There were so many brilliant performances and everyone on stage and behind the scenes should be very proud.

Thank you so much, we'll never forget it.

Em, Abi and Tilly

From the Sunshine Club

A big thank you to Nicky and all her helpers for the wonderful Christmas lunch at the Sunshine Club on the 14th December, Good food and entertainment made a really enjoyable five star afternoon.

From Nicky Jose

I would like to thank the Grade Ruan Community Trust for the financial assistance given to the Sunshine Club which has made it possible for us to get started and continue to provide a community service. Thanks also to Steve Collins who has provided us with lovely bread for our Soup lunches. We are looking for more volunteers so we can set up a rota. The club runs from 12.30 to 3.00 pm in the Pavilion at the Rec. Please contact me on Tel: 290073 if you think you could spare a few hours on a Wednesday once or twice a month..

ANOTHER NATURE SIGHTING

Following on from last summer's stick insect sightings our thanks to Ann Birtwistle for this photo.. She said she did a double take and checked she hadn't accidentally had a sherry or two with lunch!

Apparently it's a Leucistic blackbird!

Leucism is a genetic condition where the creature in question doesn't produce enough melanin. This then becomes apparent in the pigment of the feathers and it can become quite striking in birds that are typically all black in colour.

Look out for him, he's very special and let the Gazette know if you see him.

Let us know if you have seen any other unusual flora or fauna locally.

It's Chougin' Wonderful News

by Cat Lee of the Cornish Chough Conservation Network

2021 marked 20 years since Choughs started breeding again in Cornwall, due to Covid we held off celebrating until this year. On behalf of the Cornish Chough Conservation Network, we want to express our gratitude to everyone who has played a part in the conservation and engagement work to support the successful return of Choughs to Cornwall.

This cultural emblem is important to Cornwall for nature and our heritage. Cornwall's Communities have played a key part in supporting their return, whether through direct involvement with nest protection or monitoring Choughs, land management and conservation work, growing support for this work, sharing the Chough's story or raising vital funds.

We want to say a huge thanks to everyone who has played a part over the last 20 plus years. To say thank you and help celebrate this wonderful milestone we have produced a short video, which can be viewed here: <https://bit.ly/choughs20> please know that, whatever role you have played, you have helped make this happen.

The photo of the person in the Chough costume can be credited to Kevin Bowers.

WE'RE HALF WAY THERE!

Brilliant news - we can announce we have reached the half way point in our appeal to rebuild the roof of St Grade Church. Since the Appeal started cost estimates have risen from £100,000 to £140,000 but we are thrilled to be able to announce that the current total of funds raised or pledged is now a fantastic £70,800.

This means we are now in a position to approach grant providers who require half the required funds to be raised. This will still be an uphill struggle as average grants awarded for projects such as this are not high. Once the roof is built we still have other works such as the tower and masonry repairs but the roof is the most urgent priority

We would like to say a special thank you for two recent boosts to our funds.

Very generously the Ruan Revellers agreed that all their profits would be donated to the Roof Appeal. This resulted in an amazing £2,300 and was one of the best Christmas presents we could have received. It was a marvellous production directed by Angela Agutter and we are extremely grateful to everyone involved..

The New Year has also started with another unexpected boost. Just before the deadline for this publication we heard the news that the Grade Ruan Community Trust have agreed a grant of £2,500 for the Appeal.

It is heartwarming to have such community support for our Appeal and whilst we still have a long way to go it really is a remarkable achievement that so much has been raised and our thanks go to all who have given us so much support and encouragement.

Watch out for more fund raising events this year!

RoomMate®

I am often asked how RoomMate® is coming along since my wife, Helen, suddenly passed away over 18 months ago. Helen was the driving force behind RoomMate®, which is an audio descriptive device for visually impaired people to help them navigate their way around a disabled public toilet. Since we won Top Customer Excellence in the 2019 National Rail awards, we achieved much interest and orders came in from rail companies across the country.

I had always taken a back seat with the business and after losing Helen, her daughter Sarah decided to take the business on. Sarah is a full-time nurse in the Accident and Emergency department at Derriford Hospital so this was a real undertaking for her, but she was very keen to keep RoomMate® going as a tribute to her mum. She was having serious health problems herself at the time, so it was extremely brave of her to take it on. We had to try and get into Helen's laptop, without knowing any passwords, but with help from some very clever friends locally, this was achieved and the business continued. RoomMate® does not need any advertising as it seems to sell itself, and the orders have continued to come in. The units are manufactured in Falmouth, and we are currently developing and testing a new sensor which triggers the unit.

HuJu All Terrain Cane Tip

I have recently started a new project, mainly to keep me busy in the winter! As most of you know, I am totally blind and use a white cane, and I've always had problems with the available tips. The bottom tip of the cane scrapes along the ground, and takes the place of your eyes as it is your only real contact with what you are about to walk over or into. I rely entirely on what I feel and hear with the cane tip, so the tip must have very good audible feedback to recognise what it is in contact with.

All the available tips on the market seem to me to have a restricted use, the main problem being that they dig into anything like a pothole or gap between paving slabs etc. I came up with a new design which looks a bit like a ski tip. I had some prototypes made so that I could have them tested before possibly having them manufactured to sell. I selected about 20 visually impaired people around the country to test them and the feedback was very encouraging. One well-known visually impaired blogger tested the

tip for over 400 miles of walking over all different terrain and called it "an awesome game changer".

I decided to have the first hundred tips manufactured and found a small company in Leedstown who would do it for me. I began to sell it on my website, but in the meantime sent a few examples to the Royal National Institute for the Blind for testing. After extensive and exhaustive testing by them, they decided to start selling the tips for me on their website. The tip is marketed under the name HuJu All Terrain Cane Tip. The name comes from my two grandsons, Hugo and Jude.

Although these tips are manufactured for me on a CNC milling machine, each one has to be bent to the right shape with heat. I made up a wooden jig and currently bend each tip, using a kettle and a heat gun! I soon realised that I needed help with producing the packaging and posting off orders, so I enrolled my daughter, Sammy, and she has taken over this job and now basically runs the business for me.

In November, the RNIB ordered 30 tips, followed a week later by another order for 25 and then just before Christmas another 75! As I write this in early January, they have just ordered yet another 75 so presumably the HuJu is proving to be in demand.

So, every time it rains, which is very often at the moment, I get out my kettle and heat gun, and get bending. I just need to make sure that it doesn't interfere with my fishing in the summer!

The Lizard RNLI Lifeboat Station

Monday 2nd January - Our first service launch of 2023 came on Monday 2nd January at 2.58pm when our crew pagers sounded. Under the command of Coxswain Dan Atkinson RNLB Rose launched on service to go to the assistance of a 23ft angling vessel suffering from complete engine failure. With two people on board and in a position of 3 miles south east of Coverack, RNLB Rose arrived on scene and an assessment of the best course of action was carried out. As the vessel was becalmed it was decided to attach a tow and take it back to its mooring in St Mawes. Arriving there shortly before 5pm the vessel was safely placed on its moorings and RNLB Rose made the return journey home arriving back at the station just after 6pm.

Thursday 12th January - Our crew were paged at 7.25pm on Thursday 12th January following a Mayday call received by Falmouth Coastguard. A prompt launch saw RNLB Rose proceeding to a Newlyn based fishing vessel with 5 persons on board in an approximate position of 30 nautical miles south of Lizard Point. The vessel was taking in water and its bilge pumps were not working. Coastguard helicopter 924 was also tasked and was making its way to the scene.

With sea conditions described as poor, RNLB Rose steadily made her way to the position until it was confirmed that the fishing vessel crew had repaired their bilge pumps and were able to manage the ingress of water themselves. This allowed the lifeboat and Coastguard helicopter to be stood down to return to their respective stations. Arriving back at Kilcobben Cove shortly after 9.15pm, RNLB Rose was rehoused and made ready for service again when required.

Up to date news, information and photographs can be found on the station's Facebook, Twitter and Instagram pages. On behalf of us all at The Lizard Lifeboat Station we thank you for your continued support.

THE REC COMMITTEE NEEDS YOU!

In April, Gwen, one of the Rec Committee's representatives is standing down after two years. With Mike also planning to leave in the summer and Mary Keeley having just left, the committee is looking rather thin on the ground.

Hopefully new Council representatives will fill these spaces but what we really need is some proactive people to help run one of our biggest community assets. We have a busy old schedule as you know and the latest finance report indicated the Pavilion costs around £500 a week to run (before even opening the doors),

So, with a list of repairs and halted development, we need fund-raisers and proactive people that can help the remaining committee members keep improving what we have and keep it ticking over.

This doesn't mean you need to volunteer behind the bar (although any help in this area would be welcomed, even if it's once a month) but we would hope you can fit some admin tasks

around your home/work life and attend monthly meetings.

If you don't have time to be on the committee but still want to help, here are some things that would really help us out:

- If the volunteers behind the bar are run off their feet, grab a few empties on your way up to the bar
- If you notice the toilet roll has run out then notify a volunteer, or even better replenish from the cupboard yourself
- If you or your children make a mess somehow, then give the volunteers a hand cleaning it up
- See something that needs fixing then tell a volunteer or consider how you could help fix the problem.
- Be patient. Remember this is not a business and people who are volunteering are doing it in their own time and will step away if it becomes too difficult.

We know you spend your hard-earned cash in the bar and deserve to relax and enjoy it, but in the end this is a

Cont...

Recreation Ground News, cont.

community building run by volunteers and the more the community can take ownership of this asset and help out, the better it will be.

As I mentioned earlier, a recent financial review showed that the Pavilion costs just under £500 per week minimum to run.

The committee are trying to find ways to reduce this by cutting energy consumption where possible. However, in the next few weeks the committee will be reviewing bar prices to keep these in line with the rises in the cost of buying our products.

With all that said, we have lots to look forward to. The Cornish Food Hub will be serving food from our kitchen every Friday evening for you to enjoy at the

Pavilion or in your home. With a varied menu and a kid's option it is well worth sampling their delicious food.

On most Saturdays from now until the end of March, we will also be hosting the Smashed Tomatoes Pizza Van (from 5:00pm to 8:00pm or later depending on demand). This is great timing as the Six Nations start at the beginning of February. The perfect way to enjoy the rugby with a beer and a pizza!

Three performances of Joe Carpenter by the Ruan Revellers on the 19th and 20th December transformed our Village Hall. People poured in to be entertained and transported to ? well - Ruan Minor and Cadgwith - to witness Graham Clarke's enchanting Nativity Story.

The full list of everyone involved can be found at the end of this article but of course this was Angela Agutter's finest hour from start to finish. The sets were fantastic and a huge thank you to Simon Bradley, Paul Collins and Frank George. The costumes really were amazing and Wendy Elliott and Jean Trimble put a massive amount of effort into ensuring everyone looked their part and had all the props they needed. There was brilliant music, as we have come to expect, from our talented local musicians: Robin Bates, Jonathan Coudrille and Jeremy Wootliff. Between the three of them they managed to sound like a full blown orchestra!

Play Master Jonathan Fletcher kept the whole show on course and with so much happening that was quite a task. Frank George and Jan Halliday as Joseph and Mary did a grand job and delicately got across the irony of their predicament! Jean Trimble as the Angel Gabriel/local postman, managed to 'deliver' an outstanding performance whilst manhandling a bicycle at the same time, no mean feat!

The real show stealers were the enchanting, heavenly host of angels: Isla and Genevieve Bosustow, Hazel Strickland and Summer-Rose Pollard, see the photo on page 21. In the theatrical world they say you shouldn't work with children or animals, no such problems for Joe. The children were brilliant and the animals stuffed! The women bore the brunt, Mary Keeley as Jill Shepherd had a splendid sheep, however the star was undoubtedly Humphrey the Camel who gave Janet Gascgoine a hard time, but she dealt with him admirably - well done Debra Katz!

James Bosustow and Nicky Jose as Landlord and Landlady kept the tempo going

Joe Carpenter, Cont....

with great drinking songs and merriment making even the offer of stable accommodation inviting. See the colour photo on page 23.

The Three Kings were very noble and their costumes splendid. It was a surprise to find out that one came from Birmingham, one from Wales and that the other was in fact King Charles III - perhaps a part of his new role he wasn't expecting! What can't be denied is how richly they sang together, well done to L-R above, Anthony Richards, Paul Collins and Brian Jenkins..

Magic isn't what you normally expect in a nativity play but Simon Bradley literally pulled it out of the box. He never disappoints and it really was an hysterical interlude - he was ably assisted by his very Glamorous Assistant Jill Thomas.

Special thanks to Claire Bollard in The Store who was not only the ticket office but also donated the ice cream served in the interval.

It was very special to have a Christmas Production in our Village Hall in the close run up to the festive season. It was a truly enchanting production which captured

Brian Jenkins as 'Tom Tinker'

the essence of the Nativity story, and so much more, in verse and song. There were well known Christmas Carols for everyone to join in with as well as other songs, all accompanied beautifully by the musicians. 'The Twelve Days of Christmas' - or thirteen in this case - was never sung so quickly and who knew there were all those actions to go with it - you learn something every day! It was a fantastic finale. The costumes, props and attention to detail really were remarkable. It was extremely funny when it needed to be but there were also poignant moments - such as 'Oh Holy Night' sung by Anthony Richards as Old Jack Shepherd, very special.

There have been rumours that this was going to be Angela's last production. After such a success - Never Say Never!

Friends of Kennack Sands

In December we had a good turn out of 11 volunteers and between us we managed to gather a considerable amount of rubbish - 5 full black bin bags in total.

On our New Year's Day Beach Clean we had 12 volunteers collecting about 6 black bin bags of rubbish plus a large plastic pallet. On the far side of Eastern beach behind the sea wall there is a huge pile of wood free to anyone to collect!

A BIG THANK YOU TO ALL OUR VOLUNTEERS!

Dog fouling and left dog poo bags is still a big issue. Dog fouling is not only deeply unpleasant, it is dangerous. Please pick up after your dog!

***Finn not impressed with the bin bag thrown in the hedge!**

**The next beach clean will take place on
Sunday 5th February at 10am.
All Welcome!**

Rector's Ramblings

I have just received received a parcel. It contains a few samples of wallpaper that I had ordered online last week, in my search for the right colour/pattern/etc for the hallway, stairs and landing. A quick glance at the samples has left me disappointed. None of the samples seem to be what I am looking for. They're either too 'blousy'; too dark; too "in yer face"; too over the top; too 'metallic' with silvery bits. So, back to square one! It was only when I was putting the cardboard box, in which the samples arrived, into the recycling that I noticed this printed message on the outside of the box: 'Are you ready to fall in LOVE?' "Strange", I thought; but then I realised I could use this marketing sound-bite for this month's Ramblings!

'For God so loved the world that He gave His only Son, that whoever believes in Him shall not perish but have eternal life.' (John 3:16). This month, as we mark St Valentines' Day, we focus on the importance of love. In understanding the way God loves us, this verse shows us how we should love others. God's love is unconditional: God demonstrated His unconditional love for us by sending His Son into this world, to show us how we should love others, especially when it is undeserved!

God's love is sacrificial: God's love is not selfish or self-seeking, but selfless, putting the needs of others first. This is demonstrated by the cross, which is the supreme demonstration of God's love. He died for our sins to give us access to God's love, which is made real in our lives by the Holy Spirit.

God's love is forgiving. According to the film 'Love Story', 'Love means never having to say you're sorry.' Yet Jesus' love for us enables us to forgive others, as we find his forgiveness through the gift of eternal life, available to all who 'fall in love' with him and put their trust in him.

'God is love, and those who live in love live in God, and God lives in them.' (1 John 4:16).

Are you ready to fall in [to His] LOVE?

Blessings

HAPPY NEW YEAR everyone and let's hope for a good one! Work on the 'new' cliff lift moves on and things are looking hopeful that the Visitor Centre can be back in business in time for Easter. In the meantime, I thought we might start 2023 with a little 'nautical' quiz:

A FEW 'TIDAL TEASERS'

1. Next year sees the two hundredth anniversary of the RNLI but which is the oldest of the Institute's 238 operational lifeboat stations?

2. How many miles of the UK coastline do the RNLI's lifeboat stations provide safety cover for?

11,000 miles, 15,000 miles, 19,000 miles, 23,000 miles?

3. Name these RNLI lifeboat stations:

Grade Ruan School News

The Bishop of Truro

We were all thrilled to be able to spend the morning with the Bishop of Truro when he visited our school to meet everyone and lead us in collective worship with the help of our fantastic Worship Team. He spoke to the School Councillors about what it's like to be in a Church School and answered their questions. We found out that his crook reminds him that being a Bishop is like a shepherd caring for his flock. He thought the best bit about his job was visiting Church Schools and that he became a Bishop because he wanted to make a difference in the world.

We all really enjoyed meeting him and he loved our school vision!

Baarmy Bethlehem

Well done to Rose and Tamarisk Class for their wonderful nativity performance 'Baarmy Bethlehem'. Every child sang their heart out and delivered their lines beautifully. It was a delightful story about 3 cheeky sheep searching for a party which turned out to be in a stable!

Thank you to all the staff for their wonderful help and particularly Mrs Legge for all her hard work and the PTFA for refreshments.

THANK YOU RUAN MINOR COMMUNITY!

Thank you very much to the community and the Grade Ruan Gazette for choosing our school to receive the money raised by donations to the Christmas Messages this year. Our School Council chose to put the money towards these splendid benches for our playground. Wally Bird made them to our bespoke size and delivered them just before Christmas. Thank you so much everyone!

If, on a misty damp wintry Saturday afternoon, you find yourself meandering past the recreation ground and a black and white blurred image catches your eye, look again because your eyes won't be deceiving you. No, it isn't a herd of Friesian cows running amok on the football pitch, it's Ruan Minor Football Club who, after seven years of extinction, have risen from the ashes like the Phoenix and are playing Saturday football again, and playing very well at times, having beaten the top two teams in the league already.

The players are all local, living on the Peninsula, so you will recognise them. There are some old faces (for experience) and young faces (to do all the running around) but the combination is working well having won as many games as they have lost, which is no disgrace for their first season back in the league.

We have to especially thank Brian and Margaret Chivers for their wonderful donation of the new team strip. Also to Nicky Jose, Raymond and John Skewes and Ian Cox, for, without their efforts, the club would not have got off the ground. Finally to Michael Halliday - without his magic sponge the players would not get off the ground either!

[The author of this report in 1993 is not recorded. Danny Hickey and John Skewes went on to resurrect the Football Club again four years ago; the team is doing well in Division 4 of the Trelawny League. If anyone has the original of the photograph above, I'm sure the football club would appreciate borrowing it to copy. Ed]

Gardening in February

by David Endean

As I write this bit of informative nonsense the first snowdrops have dripped and the first of the snow for 2023 has dropped. February is an odd month, a good job in many ways that it is the shortest. It is a month to either finish off those winter jobs that you haven't had either the time or the inclination to do, or it is a time to try and get a bit of a head start with the first of the spring jobs.

This month I am going to sow my Sweetpeas, I pre-germinate these on damp tissue paper before potting them individually to grow on. They are germinated in an old ice cream container in the warmth of my bedroom before they are moved to the cold greenhouse once potted up. This is absolutely fine as a few years ago the top half inch of the pots froze solid but the seedling were fine. Your biggest worry is from mice and the only real answer is a little nipper mouse trap or a dozen. If you use a non-lethal trap the mice only return, poison is not instant so they still may eat your seedlings and you're not sure if you have got them and what else may be affected if they eat them. As with all seeds it is vital that you label the pots as you will invariably fail to remember exactly which varieties are in which pots.

I still have greenhouses to clear out and wash down as well as more pots to clean to start the seed sowing season off. Generally, for the flowerpots they are washed in hot soapy water, but for the greenhouse and staging I use hot water and Jeyes fluid. I also use a finger of plastic cut from a shampoo or washing up liquid bottle to get between the sheets of glass. Then this is followed by a sulphur candle which is lit and left over night.

I plan to start off my shallots in pots in the greenhouse, they will be planted in 4in square pots using multipurpose compost, I have two varieties this year, a French long shallot which I have grown for a few years now, from stock that a friend gave me originally. Plus some other standard shallots which looked good in the supermarket, grown in the UK, so they should be suitable to grow here. I will also make the first of my successional sowing of broad beans using the variety superaquadulce. This will also be in pots in the cold greenhouse. They will take 2 or 3 weeks to germinate and once that happens I will make the next sowing.

I also hope to get a head start with some salad sowings, a pinch of lettuce seed in a pot of fresh compost for pricking out a few weeks later plus I will make some broadcast sowings of lettuce in boxes for some quick salad leaves. For these broadcast sowings I will

Cont....

fill boxes with spent compost which I will add some fertiliser. At this time of year it will take around 5 weeks to get a crop. I plan to do a similar thing for some radish. I will also sow some spring onions in modules and some pointed cabbage in pots to be pricked out later.

Now is a really good time to plant shrubs especially evergreens. They should get away quite quickly as the warmer days appear and we have cut out a lot of the days of damaging salty winds which dehydrate and burn the plants, sometimes they even rip the leaves off the bushes. The damage is done because the plants cannot draw up water fast enough as the root system has not developed well enough. I have a place where the old escallonia is shot and needs replacing. I would never recommend planting escallonia now as it suffers from a fungal disease which after a few years sees it off. I fancy putting a yew hedge there so now is the time to get on with it.

I have some weeding to do around the daffodils this will help to deter the slugs and snails I don't want any damage as they will be destined for the Spring Show in March. There are some chrysanthemum cuttings to take plus some perennial bedding cuttings to take from stock plants that I have managed to over winter.

I hope that this has given you a few ideas for jobs in the garden, enjoy your gardening. Oh, by the way happy New Year!

130/22 Reports from Parish Council representatives to outside bodies.

A meeting took place on 9th November between RNAS Culdrose, the Parish Council, Cllr Soady CC, and the AONB Planning Officer to discuss a variety of issues affecting the Parish. Notes of the meeting to be distributed in due course. Clerk to circulate notes when ready

- The Recreation Ground Committee are seeking advice/support on a persistent and damaging issue around dog fouling on the football pitch. This threatens the ability of Ruan Minor FC to play home games, and is also unpleasant and potentially dangerous. The Council felt that due to the persistence of the problem, and the seriousness of its impact on the community, it would support in principle a ban of dogs on the recreation ground.

- Play area repairs have begun and are nearly complete. Thanks were given to the voluntary work put in by Pete from Rozen Furniture. Recreation Ground Committee to pursue

131/22 Public Participation.

N Jose raised the following matters: that the disposal of socially rented housing in the Parish is highly objectionable and the timeline for locals to register interest is too short; that any resurfacing of FP6 (Cadgwith) should address accessibility for the elderly and for pushchairs, and drainage matters; that the yellow lines in Cadgwith Cove should be removed altogether in favour of a sign explaining parking restrictions (per Helford); as part of the warm spaces scheme it would be ideal to have a directory of people that can help with various aspects (such as driving to health appointments).

132/22 Council Meeting: Minutes 12 October 2022

143/22 Long-term “vision” for the Council

DISCUSSED as above. Cllr Cox felt that in the absence of clear drive from the community to pursue a Neighbourhood Development Plan (NDP), there could be an alternative strategic document, such as an updated Village/Parish Plan. Parish Plans have more breadth than NDPs, are a strategic, long-term view, though have

****Cllr Trewin left the meeting***

- c) **RECEIVED** an update and quotations (1, 2) for Higher Moor - Glebe Place access works. A lengthy discussion took place. The Council understands that stiles are historically significant and have a heritage value. In this specific case the Council felt that there was a significant accessibility need in this location as it connects an area of housing with the doctor's surgery, and the alternative pedestrian route for those with mobility issues is significant, impractical and exclusionary. Therefore it was decided that in this individual case only the Council should act to improve accessibility, having already obtained landowner permission and approval from the Countryside Access Team. The project will retain the three Serpentine slabs and in tandem seek to restore another stile (in conjunction with the landowner) further along the footpath which is currently in a poor state. **RESOLVED** to accept a quotation from Freddy Trewin and pursue the renovation of the other stile separately. Cllrs Lee/Cox. Unanimous. Clerk to contact landowner regarding second stile at FP1 and Cllr Preston to pursue quotations

****Cllr Trewin re-entered the meeting***

- d) No update from the Chapel Terrace surface repair working group.
Footpath Committee to pursue
- e) No other reports.

The main event for February is of course, Valentine's Day. We'll have everything you need to treat your special person – cards, chocolates, pink fizz and of course flowers. If you're thinking of preparing a special meal, let us help you source some amazing local produce.

It's a year since we cut plastic from our fresh produce. Buying raw, seasonal ingredients for recipes by weight, is a great way to make your money go further and reduce waste. We have also been buying dried ingredients in bulk, but that hasn't been so popular. Please let us know which store cupboard items you would like to be able to buy by weight. **USE IT, OR LOSE IT!**

February will also see us launch a new budget menu in the café. We'll be introducing some tasty Winter Warmers to sustain you through the day. You can pre-order for a specific time, to either take away or join us in-store for a chat, catch up with old friends and a warm-up. Keep an eye on the local noticeboards and our Facebook page.

**DON'T FORGET
WE CLOSE AT 6PM
MONDAY TO FRIDAY
FROM JANUARY TO MARCH**
